SCHOOL OF NURSING
Immunization and Health Requirements Check-Off Sheet

Note: All health and immunization documentation must be delivered, mailed or faxed to:

Joanne Ling
SDSU School of Nursing
5500 Campanile Drive
San Diego, CA 92182-4158
619-594-2765 fax

☐ Physical exam proof (Health Clearance Form)

Medical documentation of immunizations:

☐ MMR (measles, mumps, rubella)- 2 immunizations required
  • Positive antibody titers for measles, mumps, and rubella may be used in lieu of proof of vaccination

☐ Adult Tdap after 2005

☐ Hepatitis B series of 3 vaccinations, followed by Hepatitis B surface antibody (HBsAb) positive titer

☐ Tuberculosis screening
  • Annual skin test (2 step test performed initially) or serological test for TB or
  • Yearly symptom review for those with positive tests
  • Screening date should allow you to complete the upcoming semester with the most recent test before it “expires” at the end of 12 months. For example, your last TB test should have been performed on or after January 1 for fall semester, on or after May 22 for spring semester, and on or after August 17 for summer term.

☐ Varicella (chickenpox) series of 2 vaccinations plus Varicella positive antibody titer
  • Varicella positive antibody titer, or physician-provided proof of diagnosis of varicella or herpes zoster may be used in lieu of proof of vaccination

☐ Influenza (flu) – yearly vaccination (usually available in late summer)

Your hepatitis B and MMR immunization dates and tuberculosis screening dates may be viewed on HealtheConnect.sdsu.edu, the web portal of Student Health Services.

NOTE: Your CPR original card and a copy must be brought to Hardy Tower, Rm. 54 to be cleared. Do not send CPR information to Student Health Services.

If unable to provide this information, you are required to begin the necessary immunizations immediately through your doctor or Student Health Services.
